Secretary,
Ministry of Fisheries & Aquatic Resources Development,
Maligawatta,,
Colombo 10.,

Dear Sir/ Madam,

Awareness Session on IPSASB SRS1 Standard and its Impact on Public Sector Entities and Sri Lanka's Achievement of SDGs

Sri Lanka is entering a critical phase of public sector reform, where transparency, sustainability, and accountability are becoming central to governance. In keeping up with these developments, we have organized a half-day awareness session on International Public Sector Accounting Standard Board's (IPSASB) new Climate Related Disclosure Standard, SRS 1, on 8th May 2026 from 2.30 pm to 5.30 pm.

This standard marks a significant shift in public financial reporting, aligning public sector entities on global sustainability expectations, climate accountability framework, development partner requirements and long term fiscal resilience. The objective of this session is to provide technical clarity, enhance practical readiness and highlight strategic relevance. The programme structure is given in the attached e-flyer.

We kindly request you to participate in the session and obtain new knowledge on implementing climate related disclosures in financial reporting. Please contact Arminah Mohideen on 0710 235 283 for any clarification or registration.

Sincerely
Association of Public Finance Accountants of Sri Lanka

Dr. Asela Athapathu
Secretary
